

CALL FOR MANUSCRIPTS

3rd Special Issue of Proceedings of the Indian National Science Academy (PINSA)

by

Indian National Young Academy of Sciences (INYAS)

30th January 2020

The Indian National Young Academy of Sciences (INYAS) is an academy of talented young scientists, functioning under the aegis of Indian National Science Academy (INSA), New Delhi. INYAS is the first such academy in India and is inspired by the Global Young Academy (GYA). Established in 2015, the vision of INYAS comprises i) to attract the youth towards science, ii) to disseminate the excitement of science at pre-college and university levels, and iii) to establish a network of young scientists in India.

Given the overwhelming response to the first and second special issue, INYAS proposes 3rd special issue of PINSA to provide a platform to the Young Indian Researchers to showcase the exciting work being done by them. All young scientists (below 45 years of age) are invited to contribute to this special issue by submitting original research articles and/or reviews on contemporary topics in all areas of science (Physical and Chemical sciences / Biological Sciences / Applied Science / Earth and Atmospheric sciences /any areas of interdisciplinary Science), Engineering and Technology.

Procedure and timeline for submission:

Authors are requested to prepare their manuscript as per the prescribed guidelines (see [Guidelines to Authors](#)) and submit the manuscript online at <http://insajournal.in>. All articles will be subjected to the peer review process as required by the journal.

Submissions are open now.

Deadline for Article submission: 31st March 2020

Release of issue: 1st week of November 2020

Guest Editors

Dr. Pankaj Kumar, Scientist E, Inter-University Accelerator Centre, New Delhi
Dr. Charu Lata, Scientist, CSIR-NISCAIR, New Delhi
Dr. Mudrika Khandelwal, Associate Professor, IIT Hyderabad
