

**Nomination for Election as Fellow  
of the  
Indian National Science Academy**

in the following New Categories:

- (i) Scientists working in Technology Missions of National Importance**
- (ii) Scholars in History and Philosophy of Science**

The contributions of nominees in (i) should be such that there has been a major impact on technological development at the national/international level, with clear evidence that this has contributed to the way in which science is done in the country.

Philosophers and historians of science have an important role to play in setting the record straight, in helping us to see our development as a culture and as a nation, and therefore the levels of scholarship and contribution both need to be outstanding. The nominee should have made a significant difference to how the practice of science is viewed by scientists and non-scientists alike.

\*The undersigned #Fellows of the Indian National Science Academy propose and second the following scientist/scholar as a candidate for election as Fellow of the Academy in these categories:
